FRAGMENTATION

01

Our consciousness is trapped... in bubbles
in thousands of bubbles.

....

BEING REAL

02

It's time to be real, VERY real.

...

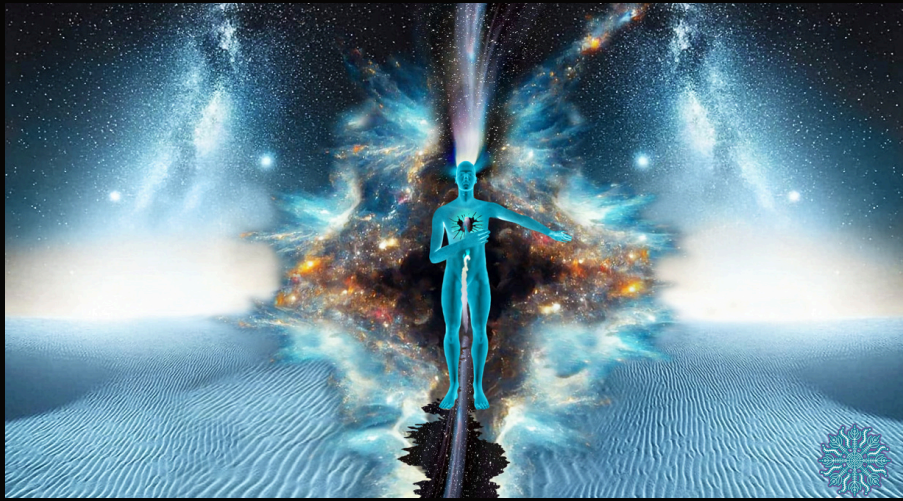

I SEE MYSELF, I SEE YOU

03

And when our fragments see each other
It feels like this

...

COSMIC WOUND

04

We are pierced by a cosmic wound.

...

METAMORPHOSIS

05

From the emptiness that opens up, dream the new form that your life will take.

....

THE EMPTINESS

06

The wound is based on believing that our mistakes persist because we are bad,

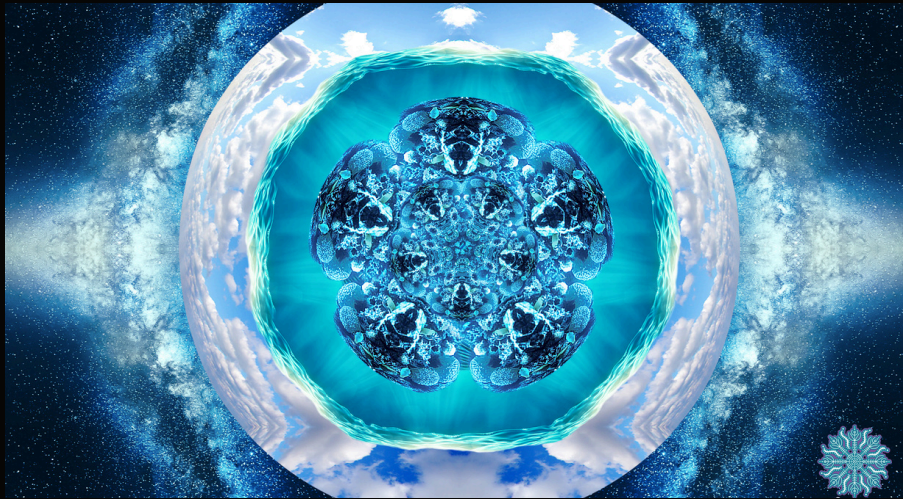

...

RADICAL COLLABORATION 07

Inside the cocoon, suddenly I turn around, I don't know how, it doesn't matter, and there you are!

...

SCALE CHANGE 08

Exactly, I'm not alone anymore, evolving, transforming.

...

FRACTAL PORE 09

All beings that have survived extinctions are fractals,

...

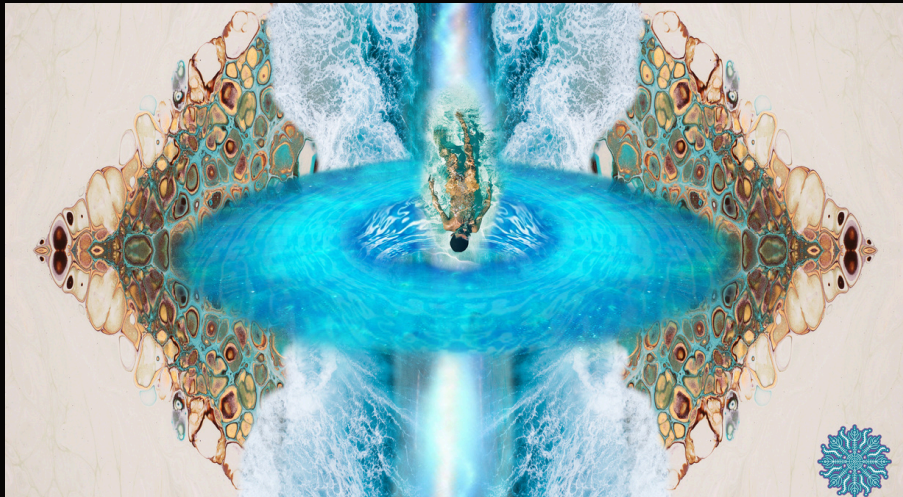

HOW TO EVOLVE

10

There's always someone holding the opening

...

BEAUTY HEART

11

You can breathe underwater,

...

INTEGRATING EMERGENCE 12

It emerges from the waters.

...

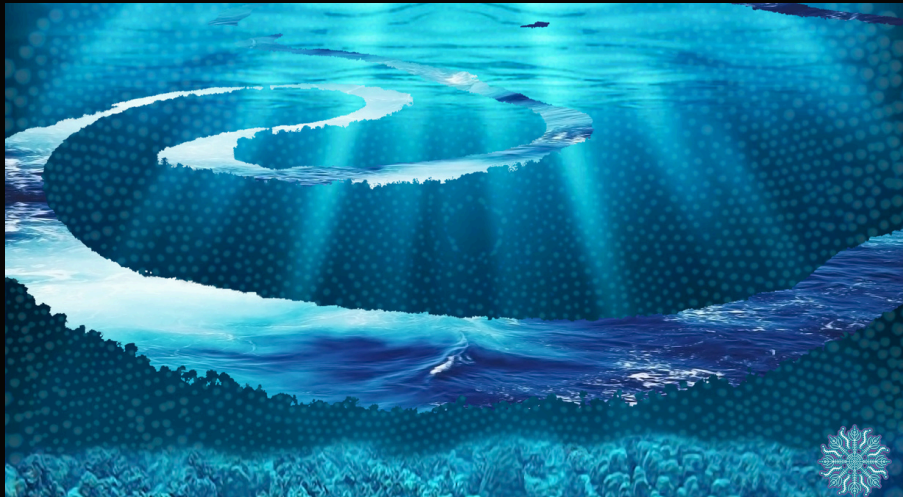

WE ARE WATER

13

ALL THIS is what I am.

...

TERI TO-RYVER

14

If I am water,
I am river.

...

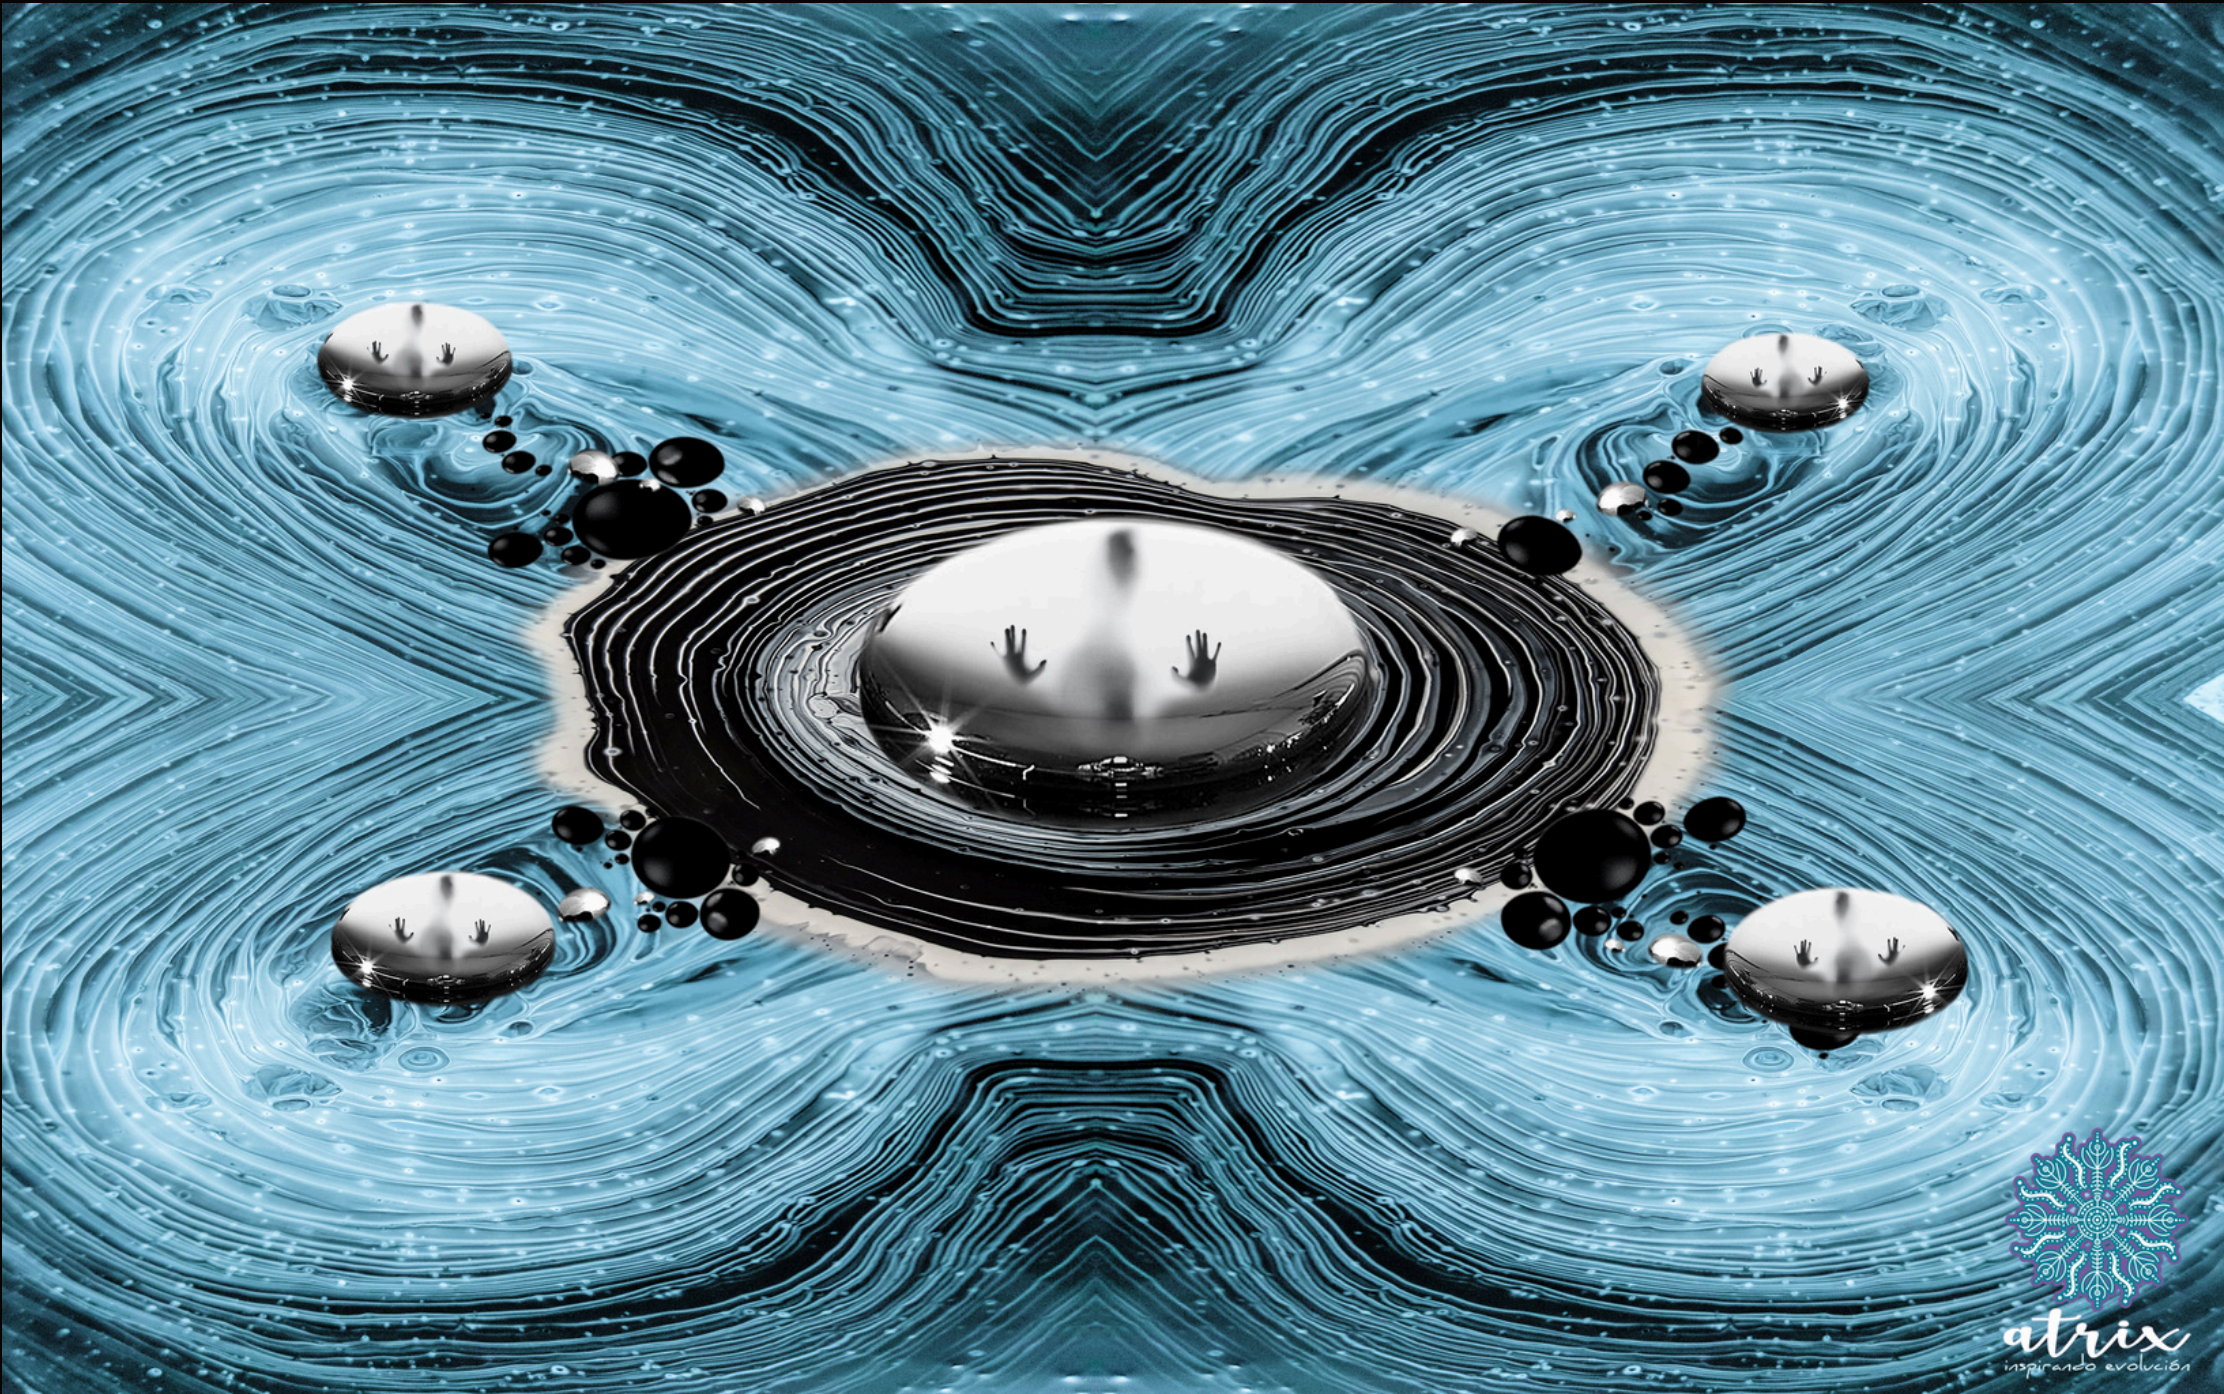

RESONANCE WITH LIFE

15

Ceasing resistance
is resonating with life.

"Evolve Within: A Poetic Journey Through Consciousness and the Universe"

Welcome to "Evolve Within," an exhibition that invites you to immerse yourself in a unique and transformative journey through consciousness, nature, and the universe. In this multidimensional experience, poetry merges with electroacoustic music and imagery, creating an immersive environment that guides you to explore the deepest corners of your being.

Join us on this journey where each text, image, and musical note will lead you through a process of self-exploration and discovery. From the cosmic wound we share to the integration of the emergent, each piece invites us to reflect on our connection with Earth, the cosmos, and our own essence.

The images accompanying the texts will transport you to internal and external landscapes, while the electroacoustic music will envelop you in a tapestry of sounds that complement the depth and beauty of the words. Together, they create a sensory experience that awakens the senses and nourishes the soul.

In "Evolve Within," poetry becomes a bridge between the visible and the invisible, the tangible and the intangible. It is a reminder that true evolution begins from within, in the silent space of our consciousness, where we can explore the vastness of the universe and discover the magic that lies in every moment of our existence.

Join us on this journey of resonance with life, where music, poetry, and imagery intertwine to create a space of transformation and personal growth. Welcome to "Evolve Within"!
